

Rear Windshield for Honda Talon 1000X 1000R

ZP-YJ-030911-017

BEFORE YOU BEGIN

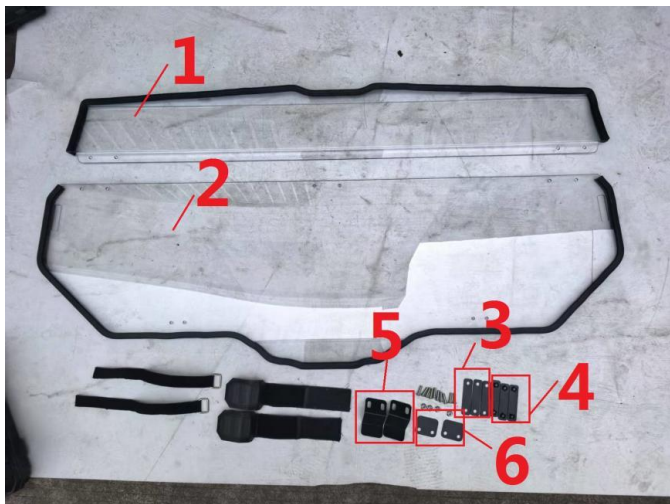

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

The Rear Windshield is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

Product and accessories picture:

1. Assemble the PC board using six M6*20 hex screws, three brackets #3, and three brackets #4. Install brackets #3 on the outside. As shown in picture:

2. Put the rear windshield to the rear of the frame according to the position shown in the picture, and then fix the lower end of the rear windshield to the rear frame with four M6*20 hex screws, four M6 lock nuts, and two brackets #5 and two brackets #6. As shown in picture:
