

Central Dashboard for Can-Am Maverick X3

YAP-030603-251

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

IMPORTANT

This FRONT CENTRAL DASHBOARD KIT is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

INSTALLATION INSTRUCTIONS

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. Product image.

3. Assemble the split dashboard into a single unit using the self-tapping screws provided with the product. Then prepare a 4mm drill bit to drill holes at both ends of the connection points, and secure them using the matching screws and nuts.

4. First, remove the cover plate from the original center console dashboard. After opening the surrounding storage compartment lid, proceed to remove the center console dashboard.

(Note: When disassembling the switch wiring harness, if the harness lacks markings indicating which switch it corresponds to, manually label the connections beforehand to prevent incorrect wiring during subsequent switch reinstallation, which could cause unnecessary complications.)

5. Remove the vehicle's cigarette lighter and start button. Then disconnect the wiring harness from the rear of the center control switch and pry out the switch. Finally, remove the entire dashboard assembly. As shown in the figure.

6. Reinstall the circular rubber component from the vehicle's center console dashboard onto the new dashboard in its original position. Then, mount the new dashboard back into the vehicle. After connecting the wiring harnesses for the center console switches, cigarette lighter, and ignition button, reinstall them in their original positions one by one.

7. Secure the dashboard using the vehicle's original screws and snap-on fasteners, then reinstall the cover plate.
