

# Instrument Panel Dash Cover for Club Car Tempo

SAUTV5®

YAP-041903-015

## BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

This *Instrument Panel Dash Cover* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

## PRODUCT

## INSTALLATION INSTRUCTIONS

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. First, remove the original instrument panel dash cover and disconnect the wiring harness connector of each switch on it. As shown in the figure:

Note: Before disconnecting the wiring harness of each switch, it is advisable to use a mobile phone to photograph the connection sequence of each corresponding harness for later re-connection, avoiding unnecessary losses caused by incorrect connections.

3. Transfer all switches and indicator lights from the original panel surface to the new panel as their original positions. Then, reconnect them in sequence according to the previously photographed wiring harness order. Finally, reinstall the new panel into the vehicle and secure it with the original screws. As shown in the image:
