

# Under Dashboard Speaker Pods for Honda Pioneer 520

YAP-030903-034

SAUTV5

## BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

This *Under Dashboard Speaker Pod* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

**Note:** Please refer to the installation video in the Amazon listing before your installation, or contact the seller for the installation video.

## PRODUCT

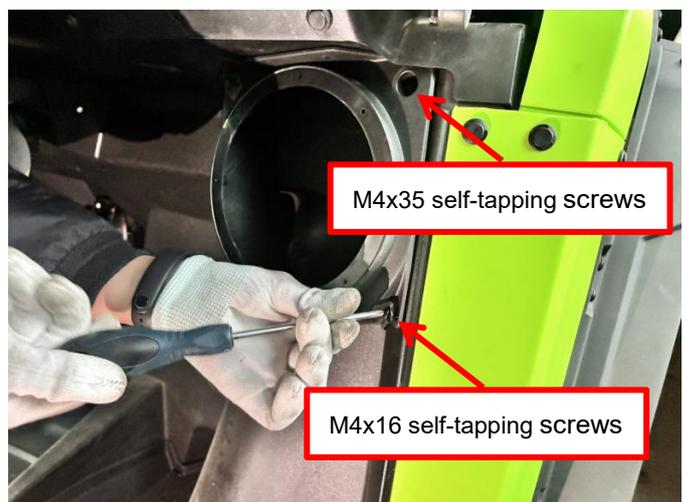

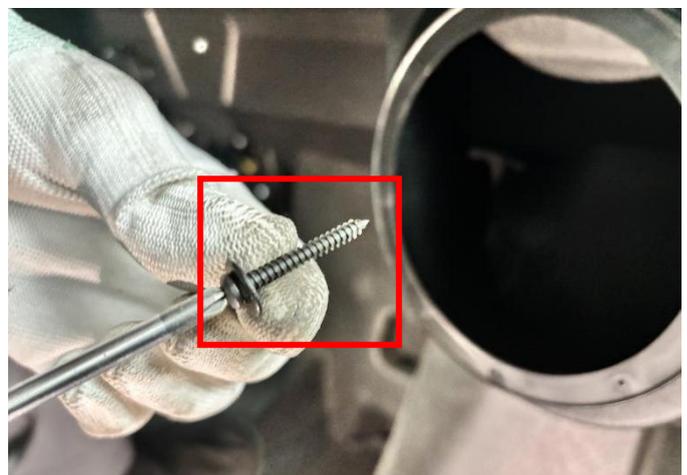

Note 1: This product does not include speakers.

Note 2: This product is compatible with 6.5inch speakers.

Note 3: The following is the installation display for the passenger side.

## INSTALLATION INSTRUCTIONS

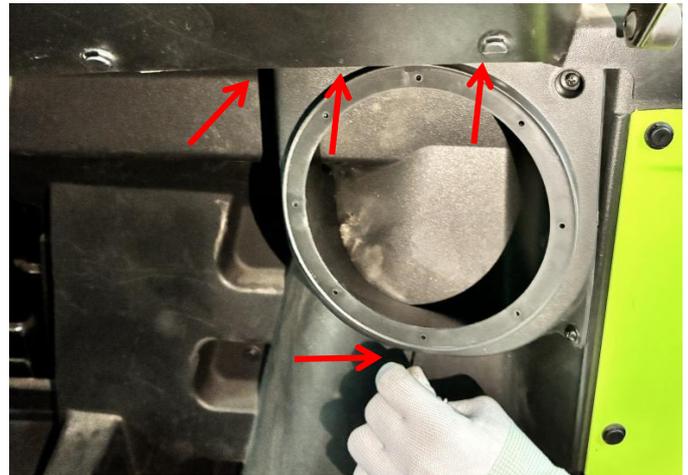

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. First, place the speaker bracket in the corresponding position under the vehicle dashboard, then secure it using the included M4x16 self-tapping screws, M4x35 self-tapping screws, and flat washers. As shown:

3. Prepare a 4.5mm drill bit and drill holes in the corresponding positions on the vehicle according to the remaining mounting holes on the bracket. Then, use the included M4X14 screws, M4 nuts, and M4 flat washers to reinforce the speaker bracket. As shown:

4. Mount your speaker onto the bracket using M4X16 self-tapping screws and flat washers (remember to connect the speaker wiring harness). Then, secure the decorative outer frame of the bracket to the speaker with M4X35 self-tapping screws. (Repeat the same installation steps for the opposite side.) As shown:
