

LED Headlights Assembly for RZR PRO XP/R/S 2025+

ZP-YJ-030501-031

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

The *Headlights Assembly* are exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK".
Turn key to "OFF" position and remove from vehicle.

Product picture

1. First, remove the original hood and the emblem trim panel. As shown in the figure:

2. Remove the front hood trim panel of the original vehicle (the other side can be removed in the same way). As shown in the figure:

new headlight's rear housing in its original position. Then, install the new headlight back onto the front bumper and secure it using the original vehicle screws. As shown in the figure:

6. Reinstall the front bumper with the new headlights back onto the vehicle, connect the wiring harness plug of the new headlights, and finally, reattach the previously removed decorative parts and protective panels in their original positions. As shown in the figure:

Note: The new headlights have a steering function, the owners can connect their own steering harness as needed.

7. The installation is complete.
