

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

The *Front Fascia* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

Product picture

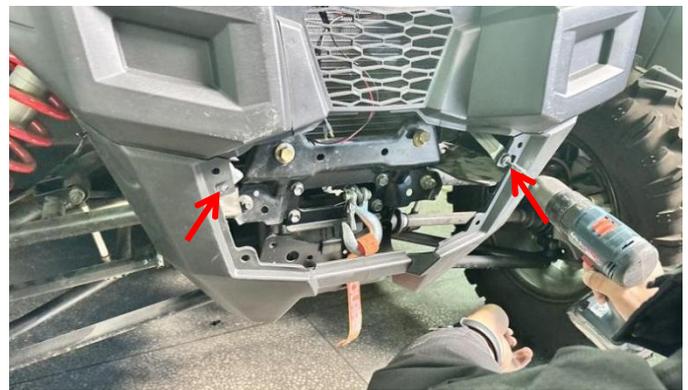

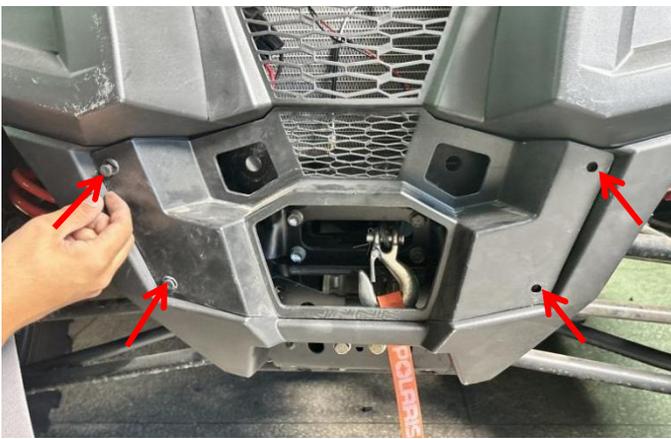

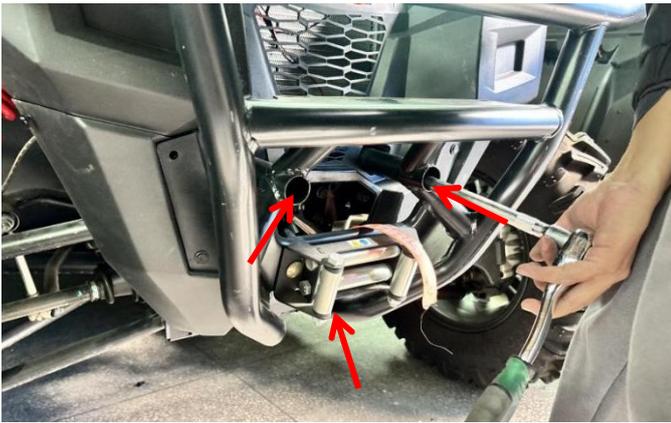

1. First assemble the front fascia into a complete unit. As shown in the picture:

Note: Use M4x12 self-tapping screws and M5x20 screws when assembling the front fascia.

2. First, open the original vehicle's hood, then remove the original front bumper and the lower shield of the front fascia. As shown in the image:

3. Next, remove the original vehicle's grille and front fascia. As shown in the image:

4. Remove the original headlights from the old front fascia and transfer them to the new front fascia in their original positions. The original metal clips must also be transferred to the new front fascia. As shown:

Front Fascia for Polaris General 1000

connect the end with the round copper terminal to the vehicle's ACC power terminal and the other end to the wiring harness of the front fascia's decorative lights. After completing the connections, turn on the ignition to verify the decorative lights function properly. Once confirmed, reinstall the previously removed bumper and other accessories in their original positions as per the removal steps. As shown:

5. Install the new front fascia with the headlights back onto the vehicle, securing it with the original screws. (For non-light front fascia, please skip the following step) Then, prepare the matching adapter harness —
