

## BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

The Rear Windshield is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

## INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

Product and accessories picture:

1. Secure the four mounting brackets to the rear windshield using eight M6 x 16 hex socket screws, eight M6 flat washers, and eight M6 lock nuts. Do not tighten the screws fully at this stage. As shown in picture:

2. Fix the rear windshield onto the rear frame, insert four brackets into the frame crossbeam, and then tighten eight M6 hexagon socket screws. As shown in picture:

3. Fix the rear windshield to the rear pillar with 4 small straps and complete the installation.

## Rear Windshield for Kawasaki Mule 4010
