

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

The Rear Windshield is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.

Product and accessories picture:

1. Place the rear windshield at the installation position according to the illustrated angle.

Rear Windshield for Kawasaki Mule PRO-MX

YAP-031011-025

2. Secure both ends of the windshield to the pillar using four long straps (part 2).

Note: Please refer to the installation video in the Amazon listing before your installation, or contact the seller for the installation video.

3. The upper end of the windshield is fixed to the rear crossbeam with two short straps (part 1), and the lower end is fixed with two long straps (part 2), and the installation is completed.
