

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference.

IMPORTANT

The Speaker Pod is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

Note: Please refer to the installation video in the Amazon listing before your installation, or contact the seller for the installation video.

INSTALLATION INSTRUCTIONS

Note: Shift vehicle transmission into "PARK".
Turn key to "OFF" position and remove from vehicle.

Product and accessories picture:

- Note:**
- 1.Support 6.5" speakers
 2. Speakers are not included in this product and need to be purchased by yourself.
 3. The following installation demonstrates the passenger side.

1. Use scissors to cut out the bracket template on the A4 paper, take out the R-side template, align it with the edge of the passenger side as shown in the illustration, then prepare a 5.5mm drill bit and drill holes according to the screw hole positions on the template.

2. Use M5*12 and M5*16 screws and flat washers respectively to fix the R-side iron bracket on the original vehicle. As shown in picture:

3. Locate the R-side speaker bracket and

attach the provided foam strip along the edge of the bracket (as shown in the image). Then, secure it to the metal bracket using the included M5*50 screws. As shown in picture:

4. Install the self-provided speaker onto the plastic bracket using the included self-tapping screws for fixation. Finally, install the decorative outer trim (secured with self-tapping screws). Repeat steps 1-4 for the left-side installation. As shown in picture:

Note: The wiring harness of the audio speaker needs to be connected by yourself before fixing the speaker.

5. Installation complete!
