

Side Mirrors for 3/4inch & 1inch & 1-1/4inch Square Tube

SAUTVS®

YAP-041905-001

BEFORE YOU BEGIN

Read these instructions and check to be sure all parts and tools are accounted. Please retain these installation instructions for future reference.

This *side mirror* is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris.

PRODUCT

① The *side* rear view mirror comes with 3 different mounting brackets, allowing you to choose the appropriate bracket for installation based on your needs.

② The installation method is the same for all 3 brackets.

INSTALLATION INSTRUCTIONS

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. First, confirm the size of the vehicle square tube to be installed. Then, clamp the mounting bracket onto the vehicle's square tube (installation height to be determined as needed), place an anti-slip pad in the middle of the bracket, and finally secure the rear view mirror onto the bracket (the other side mirror should be installed in the same manner). As shown in the image:

3. The installation is complete.
